Closing Party NorShipping 2017

MISSION TO SEAFARERS CHARITY RUN

Mission to Seafarers (MtS) is the world's leading maritime welfare charity and the chosen charity for Nor-Shipping. For the second time, we are organizing the Nor-Shipping fun run, a 5km run around Oslo city centre on Monday 29 May 2017.

This exciting challenge will see 500 runners taking on the course to raise £100.000 to help support seafarers and their families in times of crisis.

Corporate partners: Mission to Seafarers are seeking corporate sponsors for the Fun-run, to ensure that this great sporting event will make a real impact on the lives of seafarers everywhere. The race served as a great team-building activity for the various companies and delegates to kick off the Nor-Shipping week in 2017. Mission to Seafarers is entirely funded by voluntary donations, and will be partnering with YoungShip and a local runners' club to facilitate a great experience for the participants.

GOOD LUCK TO ALL OUR #NorRun supporters!

YOUNG @NORSHIPPING BOAT RACE

Bringing different generations of the maritime world together, this fun contest will see leading figures from the industry compete against each other in front of the Young@Nor-Shipping crowd. The radio-controlled boat race will take place in the bay just outside Bar Tjuvholmen. May the best man or woman win!

MAY 30:

10 WOMEN TO WATCH

To showcase talented female professionals in the maritime industry, and inspire graduates and young people to join opportunities in our industry, Young@NorShipping is joining in on the #Diversityship-themed day at NorShipping 2017 by presenting 10 Women to Watch; young female professionals who have made great strides, showing leadership potential for the future and the ability to inspire others.

Ten names will be highlighted in an award ceremony lead by Elisabeth Grieg and Jasamin Fichte during the Young@NorShipping week. 10 Women to Watch will also be featured by Norwegian finance magazine Kapital.

YOUNGSHIP

YoungShip is a professional non-profit organisation for young people working within the global maritime industry. The international YoungShip network today counts more than 2500 individual members in Norway, Cyprus, Singapore, England, UAE, Sweden, Italy, Netherlands, America & Germany.

Founded in Norway in 2004, the initiative spread quickly to other maritime hubs. The global YoungShip network is now present in some of the largest cities around the world. We started with a clear vision “YoungShip shall promote competence and network development, and promote young professionals in the global maritime industry” and this still holds true today.

YoungShip provides a platform that allows all our members to build a broader understanding of the industry. In turn these are tools that will provide the industry with a strong, motivated generation of young professionals in the years to come. We also have a particular focus on promoting young entrepreneurs working on environmental challenges, social responsibility and innovation in green technology.

MAY 31:

FROM INNOVATION TO IMPLEMENTATION

Established shipowners and start-ups discuss the possibilities and pitfalls of an ever more digital and connected maritime industry.

YOUNG ENTREPRENEUR AWARD

The Young Entrepreneur Award is part of the joint Nor-Shipping/YoungShip effort to further develop Nor-Shipping as an arena for the next generation. Open to nominees from all segments of the industry, it honors an under 40-year-old professional who has founded a successful company that spearheads challenges or solutions in a new way. YoungShip, the fast-growing international organization for young maritime professionals, is Nor-Shipping's partner and the administrator of the award.

The Young Entrepreneur Award winner 2015:

BOYAN SLAT – The Ocean Clean-Up (Netherlands)

The winner Boyan Slat, founder and CEO of The Ocean Cleanup, combines technology and entrepreneurship to tackle global issues of sustainability. After diving in Greece in 2011 and coming across more plastic bags than fish, he wondered: why can't we clean this up? He then devised a system with an array of floating barriers catching and concentrating the debris to enable a platform to efficiently extract the plastic afterwards. In 2013, he dropped out of his aerospace engineering studies to found The Ocean Cleanup. In 2014, the concept turned out to be a technically feasible and financially viable method to clean up half the Great Pacific Garbage Patch in 10 years' time. Raising \$2.2 million through crowd-funding, the organization was able to enter the pilot phase of the project.

NOR SHIPPING AWARDS

Nor-Shipping has always applauded innovation and innovators. The Nor-Shipping 2015 Awards will showcase and hail the companies and individuals who dare to do business as unusual.

A new trophy designed by Hadeland Glassverk will be presented by His Royal Majesty King Harald V of Norway to the 2017 award winners.
